Work Experience

National Instruments | Austin, TX

Strategic Analyst | October 2017 – March 2023

- Formulated and integrated new attributes into central datasets and dashboards used for analytics and reporting across numerous departments
- Performed essential, time-sensitive dataset generation and analytical requests for various stakeholders
- Produced automatically updating revenue reporting assets primarily used by company leaders and executives across the company
- Transitioned business-critical data sets and information within our legacy operating and reporting ecosystem into a newly adopted alternative
- Designed and developed ad-hoc solutions to support data cataloging of our internally developed tools and solutions

McCombs School of Business | Austin, TX

Undergraduate Teaching Assistant | January 2016 – May 2016

- Enhanced students' learning experience by directing engaging classroom activities and assignments
- Explained key concepts pertaining to networking, programming, and internet service technologies
- Assisted students in understanding course information and topics by preparing assignments and labs

Script, Inc. | Austin, TX

Document management company specializing in online faxing and document solutions for regulated industries

Quality Assurance Analyst | October 2015 – April 2016

- Identified errors in the company's future online faxing and document solution service before its launch
- Ensured that product updates were released without inaccuracies
- Analyzed fax reports to ensure that services were appropriately documented

The LIVESTRONG Foundation | Austin, TX

Information Technology Intern | January 2014 – May 2014

- Organized LIVESTRONG's Salesforce database by editing, merging, and deleting over 2K constituent records
 - Participated in workshops that highlighted and explained the growing role of non-profits in today's business environment
-
